BRINGING SCIENCE TO LIFE

Seven steps to better health with Avesta™ branded bioActives

Aspand™
Teestar™
Cincata™
Bonapure™
Phytossea™
Smartchol™
Xanomax™

Bring home good health.

The Avesta™ range of bioActives is a result of Avesthagen's proprietary technologies, AdePt™ and MetaGrid™. AdePt™ is a comprehensive database bringing together traditional medicine with modern systems biology. MetaGrid™ is a unique algorithm invented to ensure quality control of bioActives.

The seven bioActives are safe and efficacious and stand testimony to our commitment to bring modern scientific methods to traditional medicine.

The Avesta™ range of bioActives will bring joy, great taste and the goodness of health, through functional foods that will integrate into your daily lifestyle.

Avesthagen creates a wealth of good ideas for you. So, you can live in a world that is free from disease. A world where one can prevent diseases by eating right. A world that will forget starvation.

We are doing all this to set science free from the confines of a laboratory and see it spread its magic out in the real world.

Predictive, Preventive, Personalized Healthcare.
